EXPERIENCE

Tech Artist & UX Designer, Clover Bite | 2024-2026

Developed 10 mobile titles in collaboration with Supersonic (Unity) and Crazy Labs (with Hoppa Play).

Technical Artist:

- Implementation and structural organization of UX layouts, Prefabs, and project assets within Unity.
- VFX & Shaders: Developed 2D effects and custom mobile shaders.
- Juice & Polish: Created high-end animations and haptics using the Feel package.

UX Design & Characterization:

- Wireframing: Designed player flows and interactive wireframes in Figma.
- Game Feel: Defined feedback systems including animation timing and SFX.

Key Achievements:

- Idle Zoo World (Supersonic): Delivered full UX and polish; achieved 40% Day-1 Retention and CPI < \$1.
- Coffee GO! (Crazy Labs): Developed UX and technical art for a successful title with ~\$1 CPI.

Social Media Specialist, Tiltan | 2023-2024

- Content Creation: Produced video and graphic assets for college social channels.
- Collaboration: Managed student communications and coordinated with design departments.
- Certification: Completed a professional Digital Marketing course.

EDUCATION

B.Des in Game Design & Development | Tiltan School of Design 2022-2025

- Dual-Track Specialization: Combined Game Development with Game Art courses to focus on Technical Art.
- Teaching Assistant: TA for "Game Expression" course; managed course materials and grading.
- Incubator Program: Co-founded an extra-curricular development team, resulting in a professional contract at Clover Bite studio.
